TIGHTEN LINES UPON WARSAW

Teutonic Armies Still Pressing
Towards City.

RUSSIANS RETIRE SLOWLY

Few Additional Details Concerning Plans for Evacuation of Polish Capital Are Available, but Apparently the Time Has Not Arrived for a General Retreat.

London, Aug. 3.—While the Austro-Germans continue to tighten the wings of their great Eastern battlefront, with success at both extremities, including the occupation of Mitau in the north and further progress beyond Chelm, in Southeast Poland, the situation before Warsaw proper remains unchanged and obscure.

Few additional details have reached London concerning the plans for the abandonment of the city, but apparently the time has not arrived for the Russians to relinquish their precarious hold on the capital, or at least no word of its evacuation has come to London.

Ivangorod, southeast of Warsaw, heretofore erroneously reported invested, is now nearing that state in fact, according to the Berlin announcement, but from Ivangorod eastward to Chelm and beyond the Russians, who had to abandon the railway, are fighting most desperately in an endeavor to hold up Field Marshal von Mackensen's advance northward into Poland, a movement which seriously threatens the Russian center retreating from Warsaw.

German Destroyer Sunk.

The western theater has furnished nothing to alter the situation and it remained for the British navy to furnish an unexpected contribution to the news with the sinking of a German destroyer off the German coast by a submarine, and a strange assortment of performances by another British undersea boat operating in the sea of Marmora.

Pronouncements in the duma at Petrograd and by the Russian ambassador at London indicate that Russia and England are anxious to brand as unfounded the recurrent reports that the Russian people are disgruntled at the showing Great Britain and France have made in the west, which might create a situation unfavorable to the continued unity of the allies.

No hint of a separate peace or of dissatisfaction with England's policy comes from any authoritative source and Count Benckendorff made it plain that, while there may have been some sentimental popular feeling in his country for a diversion in the west to relieve the strain in Russia, there had been no criticism emanating from those who understood the military situation.

SATISFACTION IN RUSSIA

Allies' Efforts in the Dardanelles Are Appreciated.

London, Aug. 3.—Count Alexandre Benckendorff, the Russian ambassador to Great Britain, issued in London a statement reviewing Russia's position after a year of war, laying stress on the identity of aims of Russia and Great Britain and asserting that peace was impossible "except on our own conditions."

Commenting on the reports that Russia was dissatisfied with the efforts the entente allies were making in the West he said:

"It has been said that the Russian public hoped for a strong offensive in the West while the Germans were making their onset in the East. This may be so, but not a trace of ill feeling has been manifested, and the sober view, which considers only military possibilities, has always prevailed. Nowhere has the colossal effort of Great Britain and France in the Dardanelles been more appreciated than in Russia."

Pastor Ends Life in Church.

Cairo, Ill., Aug. 3.—Rev. A. P. Garrett, pastor of the Cairo Baptist church, shot and killed himself in the basement of the church. Newspapers had criticized Mr. Garrett's conduct. He preached in a St. Louis church Sunday in an effort to get a call there. He was thirty-eight years of age and unmarried.

Haitians Attack Mission.

Washington, Aug. 3.—The Wesleyan mission in Port au Prince was attacked by a mob attempting to seize a man who had murdered a prisoner in jail and had been secreted there. Rear Admiral Caperton reported the affair but gave no details. The city is now being controlled without difficulty.

British Gun in Action Against Turks in the Dardanelles

This remarkable photograph was taken during a heavy battle in the Dardanelles. It shows a British force firing their six inch gun at the Turks some distance off over the rolling sand dunes of the peninsula of Gallipoli.

W. B. WILSON.

Secretary of Labor Is
Greeted at Frisco Fair.

WILSON GREETED AT FAIR

Secretary of Labor Welcomed at Frisco by Parade.

San Francisco, Aug. 3.—Secretary of Labor William B. Wilson was officially welcomed to San Francisco and the Panama-Pacific exposition by a parade which included every available federal fighting man in the military district of San Francisco.

Troops quartered at the Presidio, including coast artillery and hospital corps, marched with marines, sailors and midshipmen from warships in the bay.

FIND HAVEN IN NEW MEXICO

German Farmers Expelled From Canada to Establish Colony.

Seattle, Aug. 3.—Several hundred farmers of German birth or ancestry, who were expelled from Canada on the outbreak of the war, or who fled to escape internment and have since found refuge in Seattle, Bellingham, Tacoma and other cities of the Northwest, are preparing to emigrate in a body to New Mexico.

It was announced that they have planned to establish a farm colony near Santa Fe, N. M., to be named Hindenburg. It is said that 1,000 persons will find homes there.

FRENCH GENERAL DEGRADED

Convicted on Charge of Stealing Military Supplies.

Paris, Aug. 3.—Colonel Francois Desclaux, former paymaster general of the French army, who, on March 27 was sentenced by a courtmartial to seven years' solitary confinement after being convicted on the charge of stealing military stores, was degraded at the military school without incident.

DEMAND U. S. SEND ENGLAND ULTIMATUM

(By United Press)

Washington, Aug. 3.—The meat packers and cotton exporters will demand that the United States send an ultimatum, or a message sufficiently strong as to amount to one, to England regarding the refusal to modify the order in council. Plans have not been formulated in detail but the general purport is not questioned. It is cited that these interests are the strongest in the country with smaller interests also sympathetic makes a formidable array and will force the president to show his hand. In case the president refuses to send such a message they will attempt to force an embargo upon the exportation of munitions to England, and if this all fails they will attempt to force an extra session of congress, and if that fails they must await the regular term. But in any case they threaten to pursue the fight with great vigor. They cite Germany in practice if not in theory bowed to the wishes of the United States regarding submarine warfare, while the British refuse the slightest concessions either in theory or practice.

GERMAN BEGIN TERRIFIC DRIVE

(By United Press)

Petrograd, Aug. 3.—300,000 Germans under Gallwitz have begun a terrific drive southward in an attempt to cut the Warsaw-Petrograd railway at Tuszcz, twenty miles northeast of Warsaw, and surround part of the Russian armies still holding salient around Warsaw. Heavy guns of all calibers are equipped for Gallwitz and fresh troops presumably from the western front are helping him. Apparently he has been ordered to batter in by quick smashing blows the northern defenses of Warsaw and force the surrender.

AUSTRIANS BEGIN ACTIVE INVASION

Rome, Aug. 3.—Several Swiss towns have reported that the Austrians will begin the active invasion of Italy through the northern Adige valley when the Warsaw campaign is completed. It is reported that massing the Austrian troops and guns has begun, but their report is only partially corroborated.

TO PROSECUTE REGARDLESS

Petrograd, Aug. 3.—The Russian Duma has called upon the government to prosecute those criminally responsible for the shortage of ammunition, regardless of their position.

GERMANS LOST HEAVILY

(By United Press)

Paris, Aug. 3.—The war department reports that around Souchez and in Vosges the Germans lost heavily during the repeated attacks on the French trenches during the night. Every assault was repulsed with grenades and the attacks kept the French troops alert all day. The Germans rushed the French positions using grenades, but the French riddled the German lines with machine gun fire.

FEAR EXPRESSED FOR CREW

(By United Press)

London, Aug. 3.—The British steamer Ranza has been torpedoed and fear is expressed for thirteen members of her crew which have not yet been landed. Capt. Ritchie and eleven of the crew are known to have been saved.

FRESH ALLIES VICTORIOUS

(By United Press)

London, Aug. 3.—Gen. Ivan Hamilton this afternoon reported fresh victories for the allies in the Gallipoli peninsula.

Opposing Arguments.

"Why can't those two men agree in their dispute?"
"Well, you see, the skinny one's arguments are too thin and the big fellow's are too fatuous."—Baltimore American.

Will Share the Responsibility

(By United Press)

Washington, Aug. 3.—Before according moral support to any faction in Mexico, the United States want the moral support of the Pan-American republics, said a good authority this afternoon. That is the reason for calling a diplomatic representative of Argentina, Brazil, Chile, Bolivia and Guatemala into a conference on the subject. The United States will profit materially by joint action and avoid imputation of selfish interests. This will let the Pan-American nations share the responsibility for the plans of success or failure and will give whatever action taken. This is the complexion of the Pan-American move.

Villas' Flying Column Destroyed

(By United Press)

Galveston, Texas, Aug. 3.—Villas' flying column under General Fierro was completely destroyed between Irapuato and Queretare, following defeat at Pachuca, says a Vera Cruz dispatch to Carranza consul this afternoon. The column is reported to have been caught between the detachment Gen. Obregon sent south and the pursuing Diguez army. Obregon reported during the battle at Torreón that he had captured 3,000,000 rounds of ammunition and huge quantities of other supplies.

Killed and Injured in Boom Proof Room

(By United Press)

Philadelphia, Aug. 3.—One man was killed and three injured in an experimental "boom proof" room in the United States arsenal at Frankfort, two of the injured being soldiers. It is understood that experiments were being made with high powered explosives when the shell exploded.

Aviators no Good for War Purposes

(By United Press)

San Francisco, Aug. 3.—Art Smith, sensational flyer at the Panama Exposition, said that less than two hundred aviators in the country would be of any use for army purposes in event of war in the United States, and fewer aeroplanes.

GERMAN DESTROYER SUNK

British Admiralty Reports Submarine Sent Down Vessel.

London, Aug. 3.—The British admiralty announced that a British submarine has reported the sinking of a German torpedo boat destroyer, believed to be the G 156, last Monday, near the German coast.

The German destroyer G 156 was completed in 1911. The vessel displaced 689 tons and was capable of traveling at a speed of more than thirty-two knots an hour. It was fitted with two 24-pounders and three torpedo tubes. Its complement in normal times was seventy-three officers and men.

TRYING TO RESTORE ORDER

American Admiral Co-Operating With Haitian Natives.

Washington, Aug. 3.—Rear Admiral Caperton cabled from Port au Prince, Hayti, that he was co-operating with prominent natives of the republic to obtain restoration of the government. A commission of Haitians and an American officer have been sent to Cape Haytien, where the Bobo revolution originated, to disarm the natives and bring the rival political leaders to Port au Prince for a general peace conference.

Germans Capture American Ship.

Amsterdam, July 31.—The Cologne Gazette reports that the American steamer Portland has been brought into Swinemund, Prussia.

LANSING ASKS FOR CONFERENCE

Invites Envoys of Six Latin-
American Governments.

MEXICAN SITUATION TOPIC

American Secretary of State Takes
First Step in What May Prove to
Be a Marked Change of Policy by
This Government Toward Our
Neighboring Republic.

Washington, Aug. 3.—The imminence of action in Mexico was foreshadowed definitely when Secretary of State Lansing announced he would on Thursday discuss the Mexican situation with the diplomatic representatives of six Latin-American governments.

For some time state department officials have authorized the statement that some action would be taken by the administration with reference to Mexico. The calling in of the ambassadors from Argentina, Brazil and Chile and the ministers from Bolivia, Uruguay and Guatemala is regarded here as the first move toward putting into effect such course of action as the president has decided on.

While it is not doubted that President Wilson has made up his mind as to his next step in Mexico the conference at the state department Thursday is expected to be in the nature of a consultation having for its object the enlistment of the co-operation of the governments of the other American republics in the United States' plan.

First Step in New Policy.

The calling of Thursday's conference is regarded here as the first step to carry out President Wilson's ideas expressed in his statement on the Mexican situation issued June 2. It was recalled that when his summons to the Mexican factions to get together and set up a government which the civilized world could deal with it was the administration's purpose to allow the Mexicans a period of about sixty days in which to make suitable response to the president's declarations.

The president said at that time that if the factions failed to get together the United States would be compelled to consider what measures it must take to deal with the situation.

In the light of these statements and the situation in Mexico, as it has developed since June 1, it is believed that Secretary Lansing will lay before the Latin-American diplomats two phases of the situation which, in the opinion of the president, require action.

The first of these is the practically continuous cutting off of Mexico City from the outside world and the terrible famine conditions existing there.

The second is the total failure of the Mexican factional leaders to take any step whatsoever toward burying their differences and setting up a sort of government which other governments can recognize.

ST. PAUL PIONEER IS DEAD

Captain Philip Pottgiecer Lived There
Fifty-five Years.

St. Paul, Aug. 3.—Captain Philip Pottgiecer, a resident of St. Paul for more than fifty-five years and a member of the police force for nearly twenty-five years, died at his home after a long illness from heart disease. He was sixty-four years old.

Coming directly to St. Paul from Germany, his birthplace, when but a mere child, Mr. Pottgiecer saw St. Paul advance from a small frontier city to one of the leading cities of the United States. Growing up, he joined the police force. On Oct. 1 last he was pensioned, leaving the department because of failing health.

WOMAN THROWN FROM CAB

Probably Fatally Injured Returning
From Funeral.

St. Paul, Aug. 3.—Pitched headlong from a cab drawn by runaway horses that had taken fright when that vehicle was struck by an auto truck while returning from the burial service at Oakland cemetery of her brother-in-law, Susan A. Peterson, killed Friday in an automobile accident at the Snelling speedway, Mrs. Charles Peterson, sixty-four years old, is believed to be lying on her deathbed at the Bethesda hospital.

Three others, her husband and daughter Edith and a nephew, Raymond Shogren, who also were in the cab, suffered serious injuries.

Fifteen Die From Heat.

Philadelphia, Aug. 3.—Fifteen deaths and numerous prostrations were reported as due to the heat here. Eight of the victims were infants.

Salvation Army circles are agog
over the coming of a notable figure in
army work. He is Staff Captain Gar-
abed who will be in Brainerd August
7 to 9. There will be good music and
lectures and Capt. Garabed will
talk on some of the great meetings
held in different places and will
speak of the trials of the mission-
aries. Staff Capt. Garabed, or "Joe
the Turk," as he is known, has been
52 times in jail in America. On the
closing night of his visit he will
give a zophone and saxophone sac-
red concert, all for the benefit of the
local corps. Joe will be dressed in
full Turkish costume. In connection
with the Sunday night services will
be the farewell reception tendered

Captain Larsen, the officer in charge
of this corps for a month and a half,
who leaves for Red Wing.

Refresments were served on the
grounds. Fred Kyllingstad, a farm-
er from Long Lake, walked nine
miles to attend the shoot. One of
the new shooters, W. S. Orne, made
a good record, 14 out of 25.

Pete Cardel got 6 out of 25 and
then did his old stunt of blowing out
the smoke and looking down the gun
barrel to see if the gun wasn't to
blame for the showing made. Here
are the scores:

TOMORROW'S PICNIC

Let us all Attend this Annual Occa-
sion and Make it One to be Re-
membered in Future

Tomorrow is the great August 4th,
the annual picnic of the Merchants
& Clerks. Everything is ready, the
pavilion is large enough to accommo-
date all and dancing is fine. Coffee
and lemonade will be served free. A
large steam boat has been chartered
and will be free for everybody. The
Brainerd City band will give con-
certs and a high class orchestra will
furnish dance music. Amusements
of all kinds. Meals will be furnished
on grounds. Ball game at Koering
grounds, game called at 10:00
o'clock. Greased pig liberated at
ball park. Sports at Lun para com-
mence at 2:00 o'clock sharp. Every-
body welcome.

OAK LAWN VICTORIOUS

Defeats Gophers of Brainerd in 12
Inning Game by Score of
7 to 6

Oak Lawn again demonstrated its
fighting qualities by defeating the
Gophers of Brainerd in a 12 inning
contest by the score of 7 to 6. The
batteries were, Oak Lawn, Nelson
and Cowles; Gophers, Anderson and
Kutka.

Cowles featured with a terrific
home run drive in the last of the
ninth that tied the score. In the
last of the eleventh Oak Lawn filled
the bases with nobody out, but a
lightning triple play started by An-
derson retired the side.

The Gophers were blanked for 10
innings without the semblance of a
score. Nelson's smoke ball fanned
23 men, while Anderson struck out
11 men.

NOTICE

I wish to give notice to the public
that my wife Florence I. Varner hav-
ing left me I wish to announce that
I will not be responsible for any
debts contracted by her after this
date.

August 3, 1915.
P. W. VARNER.

TO LIFT LID

The Bemidji Sentinel says:
—As a result of legal procedure
started yesterday on behalf of
saloonkeepers at Grand Rapids,
all saloons in Bemidji and other
places now closed under the pro-
visions of the Indian treaty of
1855, may be re-opened. A re-
straining order prepared on be-
half of the Grand Rapids saloon-
keepers further seeks to obtain
an injunction, preventing the
government from carrying out
its announced intention to close
the Grand Rapids saloons, on
the ground that there no longer
are a sufficient number of Indian
wards in the affected territory
to enforce the treaty provisions.
The injunction proceedings will
be heard before Judge Stanton
on August 17. Attorney E. E.
McDonald of Bemidji, and Mayor
Victor Power of Hibbing, are
assisting W. W. Barron of Grand
Rapids in the case. Attorney
Barron was in Bemidji yester-
day but neither he nor Mr. Mc-
Donald would discuss the case,
and neither would the govern-
ment men.

save her life.—New York Sun.

WHEELAGE TAX
REVENUE NEEDED

Mayor R. A. Beise Has Asked for
List of Those Delinquent in
Paying These Taxes

ORDERS TO PAY IN 48 HOURS

Since May 1 but 19 Autos Have Paid
Tax and City Attorney Says
it's Unconstitutional

A nice situation has developed in
regard to the collection of the wheel-
age tax, a source of needed revenue
to the city and one which has been
paid in the past.

Mayor R. A. Beise gave orders for
its collection this year and desired
that notice be given delinquents to
pay within 48 hours. Since May 1
but 19 autos have paid their wheel-
age tax, but among that list are the
most prominent car owners of the
city and several are lawyers.

New comes the city attorney, D.
A. Haggard, and says the law is un-
constitutional and it is reported that
in pursuance of that opinion he had
not carried on any prosecution of de-
linquent wheelage tax payers.

The council, as a rule, is of the
opinion that the city attorney does
not need to clothe himself with state
supreme court powers. What they
want is somebody to follow their or-
ders and collect the tax. Duluth has
a wheelage tax which stands the
test.

What Dardanelles
Campaign Means

(By United Press)

London, July 21 (By Mail).—When
the allies force the Dardanelles—if
they do—one of the most important
victories of the war will have been
won, according to a neutral diplomat
who arrived today from the near
east.

The general assumption in Eng-
land, and elsewhere, that the opera-
tions on Gallipoli peninsula and in
the straits are a costly side issue is
wrong, he declared. If the allies
lose 100,000 men in forcing the
Turks back on Constantinople and
eventually taking the Turkish cap-
ital, these men will have been well
spent.

Not only will victory for the allies
in the Dardanelles have a great moral
effect on the war situation but it will
mean that Russia's fighting capabil-
ities will be doubled if not tripled.
Russia today has millions of men
trained and ready and eager to fight
the enemy, but waiting—waiting for
their rifles, guns, shells and munitions
which England, France and
America can pour into Russia in the
necessary quantities and with the
necessary speed through the Dardan-
elles and the Bosphorus. Victory in
the Near East would also virtually
raise the present siege of Russia by
Germany and Austria.

The eyes of the entire neutral
world are today glued on the Dard-
anelles operations, according to this
authority.

Can This be Our Claude?

There is a rumor abroad that Con-
gressman Chipperfield of Illinois,
while en route to a summer resort in
the Park Region of Northern Minne-
sota, was held up by a U. S. special
Indian officer, who seized and con-
fiscated all his liquid bait, amounting
to a quart or so of "beoze." The
congressman is so indignant and hu-
miliated that when last seen he was
bound for Washington, D. C., for the
purpose of having an extraordinary
session of congress called that the
"Treaty of 1855" be abrogated, re-

WOMAN'S REALM

SHOCK OF THE WAR

MRS. HENRY FAWCETT, LL. D., President of the National Union of Women's Suffrage Societies of Great Britain (non-militant) (Written especially for United Press) (Copyright, 1915, by United Press) (Copyright in Great Britain)

When the shock of the war came upon us in August, 1914, the first thought of every man and woman throughout the British Empire was: "What can I do to help my country in this supreme crisis?"

The way in which men could help was clear; and the creation of what is known as Kitchener's army was the response given by the young manhood of the whole Empire. Not only from the Home-land but from every part of the Empire, men and gifts kept pouring in. No external compulsion was needed. The compulsion proceeded from within. Love of country and freedom, and the keen desire to serve better than any external compulsion; and it was noteworthy that when reverses and misfortunes were out lot the immediate result was a sharp rise in the numbers recruiting. Nothing more inspiring to our faith and confidence can be imagined than the way in which the young manhood of our country immediately recognized their duty and did it, not counting the cost, content and happy to be allowed to spend their lives for freedom and their country.

Amid much that is terrible and depressing in the last twelve months, this stands out a bright, clear, shining light. Our small army of a few hundred thousand has become an army of three million recruited from the best blood and all ranks, not in the spirit of bravado and jingoism but in the spirit of solemn, and at the same time, joyful, self-dedication. Those who have seen our men at the front have no words to express their admiration for them; their cheerfulness, their heroism, their absolute unselfishness.

The men left behind had to work double shifts to support the men at the front. Every man in the fighting line needs two or three men and women at home to keep him supplied with all he needs in the way of equipment, munitions and food.

The women have not been behind the men in recognizing their duty; by alleviating distress and checking want of employment in the first months of the war. Then when this phase of the national situation was changed and the government demand for war work was so great that unemployment ceased the duty of women changed also. Trained women of course had flocked from the first in their thousands to their posts as nurses and doctors, and this also from every part of the Empire. The death rate among the wounded, and deaths from disease have been astonishingly small in this war, thanks to efficient medical and commissariat organization, and above all excellent nursing. In these things, women have had the privilege of doing their part.

The hospitals officered entirely by women, with women doctors, surgeons and orderlies, as well as nurses, have been one of the new things in this war. The society with which I am connected, the National Union of Women's Suffrage Societies, has sent out to France and Serbia many of these women's hospital units. We are now responsible for more than 1000 beds and the sum subscribed already exceeds \$250,000. Our women doctors have earned the very highest praise from the military and medical authorities under whom they have worked. Lord Methuen wrote of the unit which visited Malta: "They leave here blessed by myself, surgeons, nurses and patients alike, for they have proved themselves most capable and untiring workers."

The issue in this war is, in the words of the Prime Minister, "Is right or is force to dominate mankind?" The tremendous tragedy with which we were suddenly confronted twelve months ago has had the effect upon us, if I may use the expression of correcting the value in our lives. We now love "passing things" passingly and lasting things lastingly much more than we did twelve months ago. Every one of us either in our person, or in the persons of those near and dear to us has looked death in the face at close quarters. Trifles we now recognize as trifling. The great things in life are doubly sacred. We have been brought up against the real thing, and the deepest of all realities. I think the prayer of each of us is "God help us to be worthy of the great times in which we live."

PERSONAL MENTION

Miss Anna Erickson has been visiting in Duluth.

Miss Maude Williams went to St. Paul this afternoon.

Mrs. Mathilde Finne has returned from a visit in Duluth and Michigan.

Miss Ethel Quinn has returned from Duluth where she attended the normal and also visited friends.

Miss Amy Rose, guest of Miss Mabel Smith, went to St. Paul and after a short visit there will return to her home in Duluth.

Miss Ruth Robinson left today for Minneapolis to visit friends. She will also visit at Owatonna before returning home.

Mrs. Alice Warrington, superintendent of a school in the southern part of the state, was the guest of Mrs. Henry Theviot yesterday.

Band Concert Thursday Evening

The following is the program for the band concert to be given Thursday evening, Aug. 5, at Gregory park:

March, "World's Greatest Shows" (Dedicated to P. T. Barnum)

Overture, "Indian Prince"..... Scharwenka

Late popular one-step, "It's Tulip Time in Holland"..... R. Whiting

Fantasia, "Carnival of the Winged Songsters"..... Barnhouse

Intermezzo, caprice, "Plucking Roses"..... Carl Lawrence

Fox Trot, "I Want to Linger"..... Waltzes

"Thousand and One Nights"..... Johann Strauss

March, "Royal American"..... Clement

Finale, "Star Spangled Banner".....

The band concert will be held on Thursday instead of Wednesday night on account of the clerks picnic.

BABIES IN VACATION TIME

Washington, Aug. 2.—The Children's Bureau of the Labor Department, in a bulletin issued today advises mothers who are taking their babies to the country for a vacation to:

Look into the supply of milk and drinking water.

Select, if possible, a place where windows, doors and porches are screened against flies and mosquitoes.

Make certain of sanitary water closets.

Take along a bolt of cotton netting to protect baby's crib against insects.

If uncertain about the water or milk, boil it.

If baby is bottle fed, enough feedings should be provided at home to last through the entire journey. It is best to sterilize the milk for this purpose.

Government Allowed to Appeal.

Philadelphia, Aug. 3.—Judge Buffington in the United States circuit court of appeals allowed the government to take an appeal to the supreme court in its anti-trust suit against the Keystone Watch Case company.

SCHOOL BOARD HAS A MEETING

Contractors are Paid Part Down on Work Done. Include Heating Co., Bricklayers, Painter

AGRICULTURAL COURSE ADDED

Three Teachers are Engaged for Domestic Science, Normal Training and Grade Work

All were present at the school board meeting except R. R. Wise and Frank Ackerman. Vice President LaBar presided.

The building committee reported that the contract had been awarded to H. W. Congdon for painting all exterior wood and metal of the Lincoln, Lowell, Harrison and Whittier schools. Mr. Congdon has signed the contract and furnished the proper surety bond.

The committee has ordered in steel ceilings in three rooms of the Whittier building owing to the fact that the plaster is in bad condition. The fire pit at the Washington school has been made larger. The brick stack at the Lowell school being built by Ben Samuelson is about completed. All work has been done in fine shape. A report was made on the work of the Northern Plumbing & Heating Co. of Hibbing which is installing a ventilating system in the Lincoln school and adding additional radiation in the Whittier and putting in a new fans in the Washington building.

On motion these contractors were allowed partial payments on their contracts:

Northern Heating & Plumbing Co.	\$2,000
Ben Samuelson	400
H. W. Congdon	200

The board decided to add an agricultural course the coming terms. The teachers committee was authorized to look up an instructor for the same.

Miss Elizabeth Sheldon of Ward Springs has been engaged as teacher in domestic science, Mrs. Bertha Lawrence in normal training and Miss Winifred Wright in grade work.

The superintendent and secretary were authorized to purchase the usual amount of tablets for school use.

The payroll of superintendent, officers and janitors, \$611.67 for July, was allowed and ordered paid. There were also the number of routine bills.

The text book committee was instructed to place the high school books on a rental system the same as in the grades the past year or more.

At the Grand

To those photoplay goers who prefer a great American drama "The Pit" will fulfill all they desire. It contains all the elements that go to make up a successful American play. Of course everyone has heard of Wilton Lackaye. On Thursday a 5 reel comedy "The Animal of Perpetua" will hold the boards. Vivian Martin assumes the title role.

Latest of the national stars to work in the production of films is little Vivian Martin, one of the best known and most justly popular musical comedy, vaudeville and screen favorites of this country.

Miss Martin is perhaps as well known to the theatre going public of this country for the size of her tiny foot (and pictures of it that have been run in practically every newspaper in the country) as for her ability.

For a number of seasons Miss Martin played leading parts in various of the best known of our musical comedies and light operas, leaving this branch of the game later to enter vaudeville with her own sketch.

Happy Toast

The happiest of all toasts was when a speaker wished a deaf and dumb couple "unspeakable and unheard of bliss."

In Federal Probe of the Eastland Wreck

A. L. Thurman
W. C. Redfield
George Uhler

Under the direction of William C. Redfield, secretary of the Department of Commerce, A. L. Thurman, solicitor of the department, has taken up the federal investigation of the wreck of the Eastland in the Chicago river. Mr. Thurman was taken into the department by Mr. Redfield. He is from Ohio, and is a graduate of the law department of the University of Virginia.

George Uhler, supervising inspector general of the steamboat inspection service of the Department of Commerce, was in California when the accident occurred. He left at once for Chicago. General Uhler has been head of the steamboat inspection service since 1903, leaving the presidency of the Marine Engineers' Beneficial society to take the place, and since his occupancy of the position has been through several hard fights with various interests. In his earlier years he was a marine engineer himself serving, however, on the salt water and not on the lakes.

"There is no commission, body or department in the service that has any power to sit in judgment on the stability of a vessel," said Secretary Redfield in Washington the other day. "In my reports I have called attention to the need of additional powers. A year ago, before the Marine Association in New York, I spoke on the necessity of giving the service greater powers of inspection over steamboats."

Mr. Thurman said: "A man can build any sort of a boat he sees fit. He can take any model he desires and get into commission without any inquiry at all from the government as to whether it is a stable craft. There is no board with authority to pass on its design."

+++++
TAKE KETTLES TO BE
MADE INTO COPPER.
+++++
Berlin, Aug. 3.—Large crowds of women and boys flocked to the Berlin Gas works and market halls carrying copper kettles, pots, desk ornaments and other articles in accordance with the recent request of the government that the copper supplies of the country be delivered to it for public purposes.
This mobilization of copper will occupy three days.

ACKNOWLEDGE APPRECIATION

Prominent Oak Lawn Lady is "Surprised" and Made the Recipient of a Handsome Present

Last Saturday evening, the parents and children of Oak Lawn pleasantly surprised Mrs. Ottilia Keough, who has been clerk of the board of education for the past 14 years.

As a token of appreciation of her work, Mrs. Keough was presented with a beautiful silver candelabra. Light refreshments were served to about 75 guests and all enjoyed a pleasant evening.

WORLD'S FASHION NEWS

Men's and Women's Costumes of Louis XV Period to be Featured This Fall

From the fashion straws which have escaped from behind the closed doors of the ateliers of the leading couturiers, it would seem as if the men's and women's costumes of the Louis XVth period would be featured this fall. This means full skirts, tight-fitting basques, long brocaded vests, puffed sleeves and high collars. And a great use of silks, velvets and brocades. Certain features of the men's dress in the Henry IV period are also being developed by certain couturiers. Certain it is that the models for fall will not be as simple as the French creations during the past season. Though these simple costumes expressed the sentiments and feelings of the people, they proved themselves too easy to copy and in self-defense the couturiers have been compelled to originate more elaborate designs.

Thus far the elaboration has shown itself in the skirts, the bodices being simple to the point of austerity. On handsome lace frocks are perfectly plain bodices of tulle, sometimes plaited, but quite as often simply gathered, the necks round, and the sleeves falling midway between the shoulder and the elbow, finished by a hem and perhaps hem-stitching. The skirt, on the other hand, will be flounced and frilled. Sometimes one deep flounce is used, again two, three and even four flounces, will mount to the waistline.

Again satin is to the fore, both for entire gowns and for foundations. Certain couturiers have always used satin generously. This does not mean that faille and taffeta will be compelled to take a back seat, as their popularity for another season is assured.

Quantities of old gold and dull all-

Nature Never Intended Woman to be Sickly

As a matter of fact it is her right and her duty to enjoy perfect health and strength—to be just as strong and healthy as man—perhaps more so—in view of the fact that it is she who brings into the world the offspring. Every woman can be strong and healthy. Don't resign yourself to a delicate life. If you suffer from headaches, backaches, nervousness, low spirits, lack of ambition, or have lost all hope of being well again—it's more than an even chance that you will speedily regain your health if you will try

Dr. Pierce's Favorite Prescription

(In Tablet or Liquid Form)

This famous remedy is the result of years of patient research by a physician who has made women's peculiar ailments a life study.

Since its introduction—more than forty years ago—thousands of women in every part of the globe have testified to its wonderful merits. You, too, will find it beneficial. Try it now. Your dealer in medicines will supply you or you can send 50 one-cent stamps for a trial box. Address V. M. Pierce, M. D., Buffalo, N. Y.

Dr. Pierce's Pileasant Pellets regulate stomach, liver, bowels.

As sure to rise as the Sun

You can't always make everything "just so." Sometimes you will get in more shortening than usual; or make the batter a little thin; or it may not be convenient to put a cake in the oven the moment it is mixed; or your oven may not bake evenly and it is necessary to turn the pan around—none of these little uncertainties make the slightest difference in results if you use

K.C. BAKING POWDER

This modern, double-raise baking powder has unusual strength and is absolutely certain to raise your biscuits, cakes and pastry light and feathery. It generates an abundance of leavening gas both in the mixing bowl and in the oven. The raising is sustained until the dough is cooked through.

Housewives who use K.C. never have "bad luck" with their baking. Try K.C. at our risk. Your grocer will refund your money if you are not pleased in every way.

ver embroidery will be used, laces and beading. Even the smooth fur skins are now being embroidered in beads and an embroidery of worsted outlined the top and bottom of one of the very wide Jeanne Lanvin patent leather belts. These very wide belts, generally in the dress material, give a delightfully youthful appearance to the figure and are being very generally shown.

The touch of fur is everywhere, and the costume that cannot boast a strip of it in its makeup is having a hard struggle for existence. Cross fox and the dyed cross fox are the novelties, followed by chinchilla and its imitation, the grey squirrel, seal, moleskin and kolinsky.—From H. F. Gossard Corset Co., courtesy H. F. Michael Co.

NEBRASKA DRYS GET READY

Lincoln, Neb., Aug. 2.—The dry forces of Nebraska are girding up for a terrific battle during the year 1916. The campaign is to be formally launched at a convention to be held in Lincoln during the latter part of next month. The call for this convention has been issued, signed by 176 citizens of the state.

Both the wet and dry forces plan to wage a hard-fought battle, and speakers of national reputation will take part.

These New

Post Toasties

Are the first and only corn flakes that are "good to eat" without milk, cream or sugar.

Try some fresh from the package, and at once you get a wonderful true corn flavour—vastly different from that of the ordinary "corn flakes" you may have had.

Notice the little pearl-like "puffs" on each flake—a characteristic that is distinctive; also that when cream or milk is added they don't mush down, but keep their body and appetizing crispness.

There's a Royal Treat in every package of

New Post Toasties

—from your grocer.

THE BRAINERD DAILY DISPATCH

By Ingersoll & Wieland

SUBSCRIPTION RATES

One Month.....Forty Cents

One Year, strictly in advance.....\$4.00

Office in Dispatch Building on 6th St.

Entered at the post office at Brainerd, Minn., as second class matter

TUESDAY, AUGUST 3, 1915.

Eight cents a quart is the price of milk in Minneapolis, the big concerns tilting the price and the small dairymen, operating individually, were quick to get in line.

The lady who presides at the editorial desk of the Little Falls Transcript says she is not going to be in attendance at the editorial excursion—unable to qualify to the following from the Sauk Center Herald: "An editorial excursion usually consists of grouch, genius and spooners."

It will be some time before society adopts the advice of Dr. Smith, of Boston, who advises everybody to go barefoot, especially the ladies of America as they inflict abuse upon themselves as do the women of no other nation in the shoes they wear. This from a man who lives in the heart of the shoe producing section of the United States is too much.

The call to arms has been sounded in the grain producing section of Minnesota and the Dakotas, and harvest hands are now badly needed in the Red River valley. This will relieve the hobo pest for a time and the pot gangs will absent themselves from their favorite haunts much to the delight of housewives who have been donating by request to the many picnic dinners that these toll evaders have been enjoying.

Five federal buildings were authorized some time ago by congress and the site money was set aside several years ago, but the buildings have not materialized and the cities in which these public structures were to be erected are wondering why and how long. Little Falls was one of the five and the Transcript of that city says they were honored in being selected as one of chosen, the site was paid for four years ago, adding "When democracy is in full power things surely do move—but backwards." Bemidji is another instance, and in that city the government has just entered into a new lease of the present post-office quarters for a term of five years.

War Oddities

Belfast—Hugh McCruden, a German Jew, member of a British regiment, supposedly intoxicated, cheered for the Kaiser and was arrested under the defense of the Roehm Act.

London—Lord Kitchener has turned the park and gardens of his country home over to wounded soldiers who may roam and pick flowers "as much as they like" according to the warlord's orders.

Athens—That General Liman von Sanders, commander-in-chief of the Turkish army, in constant fear of assassination, goes about daily clad in armor that not only covers his body but his head, is the statement today of the Constantinople correspondent of an Athens paper.

The General's head "impediments" resembles somewhat the head armor of the ancients and discloses no more of the commander's face than can be seen through thick glass goggles.

Despite all precautions, according to other advices, von Sanders was wounded. It was not stated, however whether he was hit when clad in his armor.

RUSSIA APPEALING TO ALLIES

By J. W. T. Mason, for United Press

Russia is now openly appealing to her western allies to go to her assistance by developing a major offensive in France and Belgium. Hitherto the Slav pressure brought to bear at London and Paris for help has been secret, so far as the Russian government has been officially concerned. Unofficial intimations of a plea for a western offensive was telegraphed from Petrograd last week, but the government itself remained silent.

Today, however, in an official communique, the Russian government declares the Germans are moving troops from the west to the east, and then adds that "this fact creates favorable conditions for active operations of our allies." In other words the czar now openly demands that the British and French no longer remain idle while the Russians are being forced to abandon all of Poland to the enemy.

It is not probable the Allies have taken this means of announcing that a western offensive is shortly to begin. Rather, the circumstances suggest that the Slavs have been unable to persuade Great Britain and France to strike at the present time. As a final effort to compel a military diversion, Russia therefore has decided to try the effect of publicity. The situation cannot be pleasing for the western allies. Not only is it uncomfortable to have Russia officially and openly advising France and Great Britain what they should do, but also there exists the possibility of a rupture growing out of a persistent refusal of the western allies to move forward.

That Great Britain and France are quite unable to develop a serious offensive at this time because of their shortage of munitions is apparently disbelieved at Petrograd. The necessity for husbanding ammunition to withstand a possible German effort to reach Calais unquestionably does not make the same impression at Petrograd that it does at London and Paris. If the Slavs' allies remain inactive despite Russia's public appeal, it is certain there will be resentment at Petrograd and Poland's evacuation will be associated in the Russian mind with the absence of co-ordinate military effort in the west. Had Germany not persuaded Turkey to enter the war, and if there were no possibility of Russia securing control of Constantinople, the basis of a possible separate peace unquestionably would now exist at Petrograd.

Inflict Atrocities on the Armenians

BY HENRY WOOD,
(United Press Staff Correspondent)

Dedeagatch, Bulgaria, July 29—(Delayed)—Atrocities that rival the outrage of Abdul Hamid are being inflicted on the two million Armenians in Turkey by the Young Turk government. Official circles in Turkey are using every possible means to prevent news reaching the outside world. I have come here from Constantinople to cable a story of conditions as they were told to me by sources in the Ottoman capital whose reliability cannot be questioned.

Thousands of Armenians have been deported from their homes in Asia Minor; their property confiscated and their families broken up. Young Armenians have been hurried drafted into the army and rushed to Gallipoli peninsula to meet a quick end in the trenches of the Dardanelles. Wives, mothers and young children have been left helpless in the streets or transported to strange cities and abandoned to the mercies of the Mussulman population. Thus far no wholesale massacres have been reported to Constantinople. But the critical moment for the Armenians will come when the Turks meet with a serious reverse at the Dardanelles, if that should occur or when the Armenians themselves become emboldened by the successes of their local revolts and attempt a general movement in rebellion.

So critical is the situation that Ambassador Morgenthau who almost single handed in fighting to prevent a wholesale slaughter, has felt obliged to ask the cooperation of the ambassadors of Turkey's two allies. Baron von Wangenheim, the German ambassador, and Margrave Palaytini, the Austrian representative at Constantinople, have responded at least to the degree of joining with the American ambassador in trying to convince the Turkish government that a renewal of the atrocities of the former Turkish regime would be a serious mistake.

The order for the present cruelties was issued early in May and executed with all the extreme genius of the Turkish police system. At Brouses in Asiatic Turkey, the city which, it is said, the Turks will select for their capital if Constantinople falls, I investigated personally the manner in which decrees were carried out. At Brouses, the police at midnight swooped down upon the homes of 11 Armenians, whose names had been put on the prescribed list sent out from Constantinople. These men were arrested and the minutest search made of their homes for possible revolutionary documents. The young Armenians were then ordered into the army, the older men were deported into the interior, while the women and children who were not carried off were left to shift for themselves. In thousands of cases the deportation had been carried out on such a basis that families will never be reunited. Simultaneously with these arrests throughout the empire, the Constantinople police arrested the alleged leaders of an Armenian society, who were charged with plotting the establishment of an independent Armenia. Nineteen of these men were hanged in front of the ministry of war. Among them was a man who had been the cashier for a Turkish branch of the Singer Sewing Machine Co. At the Armenians town of Zeltoun of 20,000 inhabitants, the young Armenians refused to enlist in Turkey's armies. A Turkish military force was sent against the city, but 300 of the Turks were killed. An overwhelming Turkish force was then sent and when the city fell the Turkish military officials carried out to extreme degrees the system of deportation and dispersion. Twenty thousand Turks from Trane were taken to Zeltoun and established in houses that for generations belonged to the Armenians, while the former owners were scattered to the extreme ends of the empire, one portion being sent to the sandy deserts at the head of the Persian gulf and the other to malarial marshes in the interior.

Eye witnesses from the interior coming to Constantinople described the processions of these ragged, miserable Armenians, herded by soldiers in groups ranging from 50 to several hundred. Old men who could not maintain the pace were beaten by the soldiers until they died in their tracks, these eye witnesses said. Children dropped out by the wayside to perish. Mothers, unable longer to nourish their babies, dropped them in wells as they passed preferring to end their sufferings. The Armenian colony of Constantinople numbering about 70,000 is practically the only group that has escaped and they owe their safety largely to Ambassador Morgenthau, who has assumed a sort of unofficial protectorate over them.

In defense of these measures the Turks assert that the Armenians despite previous warnings, engaged in rebellion when the allies attacked at the Dardanelles. The Armenians, the Turks charged, not only occupied the town of Van and other places, but extended important help to the Russians in the Caucasus.

Remarkable Escape

Petrograd, July 1 (By Mail)—A Cross of the Order of St. George probably will be bestowed on Ensign Bearer Kotchiff, who has just reached the Russian lines after a remarkable escape from the enemy.

Near Rotagin, during hostilities, Kotchiff was captured and taken to the Austrian headquarters. In a small room of the Austrian general's headquarters he was questioned by the general and a colonel. Taking advantage of a bayonet lying on a table, Kotchiff stabbed the general to death as he pointed to a wall map his back turned. Then he made equally quick work of the colonel, hastily put on the uniform of the fallen general and calmly walked out past the guards and through the enemy camp to a nearby wood. Here he waited until night and finally escaped to the Russian lines.

Quaker Tibetan Custom.

Tibetans cut the bodies of their dead in pieces and throw them into the lakes to feed the fish.

NO EXTRA SESSION IS NOW IN SIGHT

President Will Not Take Risk Unless Necessary.

DEMAND IS NOT POPULAR.

Comes Largely From a Few Members of Congress Who Are Bent on Kicking Up Trouble—Talk of Embargo Often Heard, but is Seldom Considered Seriously by Majority.

By ARTHUR W. DUNN.

Washington, Aug. 3.—[Special.]—Extra session talk appears on every pretext. The last time it was sprung the assertion was made that President Wilson wanted congress to take early action to improve our national defense. It may be asserted with considerable positiveness that only the threat of war and the necessity for congressional action in case of war will bring congress in extra session. President Wilson does not want congress in session, aiding in affairs of state which he feels abundantly able to handle himself.

Another reason why an extra session will not be called at this time is because it would create the greatest amount of speculation and conjecture. Most people would assume that war was imminent if an extra session should be called. The president is not going to take any such risk unless it is necessary.

Demand Is Not General.

The demand for an extra session is not general. For the most part it comes from those whom the president has least cause to consider as good advisers. Few members of congress want an extra session, and those who advocate it are men who would like to stir up things, such as putting an embargo on goods going to England as long as she interferes with our shipping, forcing action in Mexico, wanting to know what Japan really means to do in China and whether we intend to build up a great navy and strengthen the army. Those are subjects the president proposes to handle in his own way for a time.

Talk of Embargoes.

How freely people talk about embargoes on this or that article; how simple it seems as a means of bringing a nation to terms or stimulating certain lines of activity! But it is a fact that an embargo is always unpopular and leads to all sorts of complications. It was tried in the early days of the government in dealing with foreign questions and found to be vexations. Only recently we found that placing an embargo on arms going into Mexico proved to be a troublesome proposition. The fact that embargoes work injustice to innocent persons make them unpopular.

The demand for an embargo on munitions to the allies is futile because the plants would be established in Canada and the output would soon be as great as at present. An embargo on goods to England would injure more people in this country than are now injured by the interference by England with our shipping.

Has a Familiar Sound.

There is not much going on in politics these days, but from time to time there emanate from different quarters in New York, chiefly interviews with New Yorkers, statements that New York will probably present Governor Whitman for vice president at the next national convention. When the New York machine wanted to get rid of Roosevelt it presented him for vice president. The talk of Whitman for second place has two meanings, one is that they want him out of the way in New York, and the other that they do not think him available for president.

Uncle Sam May Get His Bit.

The strikes in various factories where war munitions are being manufactured is simply the result of a desire of every person who can to get his bit out of the war in Europe. Men see the manufacturers of powder, shells and all other kinds of war material growing wealthy on account of the large profits they are making and they want a share of the good stuff. Our government has been looking on and some of the officials wondering how the nation might get a share. It cannot levy an export tax, but the time is coming when it must re-enact the war revenue tax, and it can lay a pretty good stiff tax upon all war munitions. It can carefully avoid any suggestion that it is export tax by making the levy on all such articles manufactured, by taxing all articles that go into the making of war materials. This may be attempted during the coming session.

"They Are Kicking In."

"They are kicking in," was the comment of a man who had just read the latest utterances of Roosevelt and Bryan. One is talking in the churches about turning the other cheek, and one is talking to the crowds and reporters, but both are kicking into the game. They don't propose to be left out of the big time next year. You just mark my word. And if there is no war you can't keep them out. One will be the candidate of the peace people and the other of the war people. Wilson? Oh, in case there is no war Woodrow will fall between the two stools."

The Biggest and Best Circus Ever

In This Section of Minnesota Will Be at

Brainerd, Tuesday Aug. 17

Holiday event of the year. Only circus this year. One 50c ticket admits to all, children 25c. Reserved & admission seats on sale circus day at H. P. Dunn's drug store at same prices as charged on show grounds.

MORTGAGE-LIFTER IN OPERATION

Oklahoma City, Okl., Aug. 2—Authorities expected today to have in full operation soon the state's new home ownership law, whereby Oklahomans can obtain money to lift mortgages, and to make permanent improvements on farms and homes. State officials say the measure is the first workable plan of the kind yet evolved.

Not more than \$2000 can be loaned to any one person—but that's a whole lot when it comes to lifting a mortgage on the old home.

The Rivals.

The word "rivals" at one time meant neighbors who lived on the banks of a river.

An Easy, Pleasant Laxative

One or two Dr. King's New Life Pills with a tumbler of water at night. No bad, nauseating taste; no belching gas. Go right to bed. Wake up in the morning, enjoy a free, easy bowel movement, and feel fine all day. Dr. King's New Life Pills are sold by all druggists, 36 in an original package, for 25c. CITY ATTORNEY, QUERY ABOUT HIM

Alderman Turcotte Asks He be Suspend-
ed Because He was Not
Attending to His Duties

WHEELAGE TAX IS CONSIDERED

Attorney Broady Says City Attorney
Haggard Declared it was an
Unconstitutional Tax

The meeting of the city council Monday evening was a peaceful affair and simmered along from 8 o'clock on Monday evening to 1 o'clock Tuesday morning. The only flurry developed in the gray morning hours and that was when Alderman Turcotte asked where the city attorney was.

In reply to his query it was stated he was in California. Alderman Turcotte moved the city attorney be suspended because he had not notified the council and was not here to attend to his duties. No action was taken.

An amendment carried that the matter be brought up at the next council meeting.

The wheelage tax was discussed. Some valiant auto owners have paid the tax, but the large majority have side-stepped it. Some of the more prominent citizens have paid it.

An alderman asked that efforts be made to collect it. Attorney Broady said City Attorney Haggard had declared the tax was unconstitutional. With such a state of mind existing, many wondered how the city attorney would go into court and try to collect the tax when he felt disposed to treat it as unconstitutional.

Alderman Turcotte referred to police matters, but no action was taken at the time.

Alderman Benson brought up the drilling by John R. Harrington on the city land in Northeast Brainerd. He said Harrington had forfeited his option as he had ceased to drill continuously. The city clerk was instructed so to write to Mr. Harrington.

The present city administration is amply supplied with disinfectants for a former city clerk is charged with having ordered \$100 worth. The company, in reply to a demand that they take back the heavy order, claimed it was properly ordered and accepted by the city. Former Alderman Hess, on the previous purchasing committee of the council, is said to have told councilmen he knew nothing of the order. The next move will be up to the disinfecting manufacturing company.

Ordinance No. 276 was given its first reading. It provides that after Sept. 1, 1915 it shall be unlawful to erect, keep or maintain in the city any water closet or privy which is not connected with water and sewer unless the residence to which it shall be connected shall either not abut a street on which there is a sanitary sewer or shall be more than half a block from the street line in which is located a public water main. A violation of the ordinance is a misdemeanor punishable by a fine of \$25 or 30 days and every day of the maintenance of such nuisance is a separate offense.

L. A. Canfield asked for assistance to keep a son at the School of Feeble Minded at Faribault, the annual charge of which was \$30. After an exposition of the case by Mr. Canfield and argument by the council, the request was granted with the provision that Mr. Canfield work it out in employment by the city.

The Northwestern Telephone Exchange Co. submitted a number of plats providing for the establishment of poles lines which had been O. K'd by the street committee and city engineer and the report was accepted by the council.

Alderman Haake said no decision had been reached in telephone matters submitted his committee and further time was granted.

Alderman Anderson said the Minnesota Telephone Co. was setting them near a man's doorway. The case was cited of the Windsor hotel. An electric light pole stood on the corner, a Northwestern pole near by and within the thirty foot radius of the two poles was the new one of the Minnesota Telephone Co.

Alderman Haake wished the council to recommend to the water and light board that an agreement be entered into by the two telephone companies to use poles in common.

D. F. Stacy had a bill in for janitor services amounting with extras to some \$60. The council cut it down to \$45 and allowed it at that figure. The application of Mr. Stacy for janitor of the city hall was read and on motion filed.

Ordinance No. 275 regarding the annexation of Lum park received its second reading.

Bonds of City Clerk Mahlum in the sum of \$1,000 each as city clerk and

ASKS PERMISSION TO LOWER RATES

St. Paul, Minn., August 3—The Northwestern Telephone Company has filed a petition with the State Railroad and Warehouse Commission asking permission to lower its rates at Brainerd.

clerk of the municipal court were approved.

The lease of the South Sixth street school grounds for play ground purposes made by the school board to the city was approved and the mayor and clerk ordered to attach their signatures to the lease of five years at an annual rental of \$1.

H. P. Dunn notified the council he wished to move his residence a block and was given permission to use the streets.

The city engineer was ordered to bring in at the next meeting blue prints and reports on the South Fifth and South Sixth street sewers.

Hugo Schwartzkopf reported that the petition for a sewer in his section of the city had been signed by practically three blocks of people on Fourth Avenue, being the west half of the block. Some talk occurred over having in the stubs too with the sewer. The city engineer was instructed to draw plans to be presented at the next meeting.

Signs calling attention to the children's playgrounds at Sixth and Oak streets are to be erected near the grounds, following the suggestion of the school board. The matter was left in the hands of the purchasing committee.

Alderman Anderson, seconded by Alderman Betzold, moved that a traffic policeman pay vigilant attention to the race of two autos down Oak running side by side wide open. The renting of vacant offices in the city hall is to be left to the purchasing committee.

P. B. Nettleton spoke to the council regarding his bubbling fountain to be used for drinking purposes at the city hall. He also urged the culture of alfalfa at the city hall site.

Wm. Nelson addressed the city council protesting on drainage charges made by the city to the water and light board, protesting as per order of the board. The matter of a scale of charges was left with the purchasing committee.

The finance committee made a short report. It was stated there was \$11,000 in the revolving fund. Alderman Pete Peterson wanted uniform street lines and sidewalks. President Farrar said each council appeared to have a uniform system of its own.

Mr. Smith of a Twin City landscape firm talked to the council of beautifying the city hall grounds. He was asked to submit plans.

Rent for the water and light board offices were set at \$50 a month.

Alderman Benson said repairs to Mill street and Ash avenue had been completed. He reported on curbing Bluff Avenue and 13th street South-east.

W. D. McKay asked for assistance in the matter of a road on the west side and adjacent to the city limits and suggested the use of old bridge timbers from the fill locations and planks from the Laurel street bridge to make a bridge for the road. It was left in the hands of the street committee.

The furnishing of the rest room, the city's proportionate share, was left with the purchasing committee.

The street committee is to look up the matter of a right of way and the subsequent construction of a path along Ash Avenue to Lum park.

The report of the chief of police for June showed 5 arrests for June, being 2 for drunkenness and 3 for petit larceny. In July there were 7 arrests for drunkenness, 1 for disorderly conduct and 1 for petit larceny.

The lateral sewer championed by Hugo Schwartzkopf follows a route in the alley in the blocks between Fourth Avenue Northeast and Fifth Avenue Northeast from Oak street Northeast to Farrar street. The signers included Hugo Schwartzkopf, Wm. Mattson, Walter Davis, E. E. Forsyth, Della Depue, John Mary, Mrs. M. Arnold, N. W. Betzold and A. E. Anderson.

Bonds of the three sinking fund commissioners, Erick Kronberg, A. G. Lagerquist and J. W. Koop, in the sum of \$2,000 each, were approved. Chris Mathison filed his application for janitor of the city hall.

The paving with cement of a strip 16 feet wide on 13th street from Oak to the springs, approximately 1 mile, was left to the street committee to take up with the board of county commissioners in session Tuesday, August 5, with a view of turning to the county treasurer the amount now in the city road improvement fund, the county in turn to appropriate a like sum from its road and bridge fund to be used by Brainerd for street improvements within the corporate limits of the city.

BIG CIRCUS COMING

The Carl Hagenbeck-Wallace Shows are to Appear in this City
Tuesday, August 17

Peanuts and pink lemonade will soon be ripe and the odor of sawdust tankard will permeate the air. The Carl Hagenbeck-Wallace Circus, gayest, grandest, gladdest galaxy in all the wide world, is coming to Brainerd on Tuesday, August 17 for two performances. This year the big show—in reality there are two shows—will come aboard three special trains, the longest ever used to transport a circus aggregation.

The country for miles around is all aglow with the noisy circus bills of purple and gold, and the downtown billboards are the mecca upon which thousands of eyes feast their gaze. Father Time is always on the job; scenes come and go, but somehow or other the circus is just the circus, and its popularity never wanes. The joys and memories of circus day keep a steady hold upon the heart-strings of the American people.

All through the long months of winter agents of the Carl Hagenbeck-Wallace Circus have been scouring the continents of the earth securing novelties and features. The performance this year will be entirely new. More than 400 acrobats, gymnasts, riders, contortionists and athletes, together with fifty clowns, compose the circus end. In addition the big show is augmented with Carl Hagenbeck's trained wild animal exhibition. Hundreds of wild animals, lions, leopards, tigers, pumas, jaguars, elephants, seals, monkeys, etc., will constitute that department.

Performances will be given at 2 and 8 p. m. Doors to the zoological paradise will be opened an hour earlier. A three-mile-long street parade will leave the show grounds at 10 o'clock the day of the exhibition and will pass through the principal downtown streets.

TEMPLARS AGAINST BOOZE

Philadelphia Ledger: Knights Templar in Pennsylvania have voted against liquor.

By an overwhelming majority the members of the grand commandery of this state have decided that in the future no man connected, either directly or indirectly, with the liquor business should be admitted to membership in this branch of Masonry.

This blow at the liquor business was taken at the final business session of the grand body. As at all the sessions of the grand commandery, only members of that conclave were admitted. The resolution that called forth this action was presented by William Foster, a member of Kadosh Commandery No. 29, of Philadelphia. It precipitated strong discussion, for a similar motion was presented a year ago, but was tabled. This time its advocates refused to let the matter be downed. Led by Robert M. Stafford of Pennsylvania Commandery No. 70, a number of knights made speeches in its favor. When the roll was called the opponents of the resolution were outnumbered nearly three to one. A bare majority would have been sufficient to carry the resolution.

MR. PORKER IS HERE FOR FRACAS

Pig to be Greased, Released and
Caught Wednesday Morning at
the Koering Ball Grounds

THE ST. CLOUD-BRAINERD GAME

Ed. Bowman and Bud Roderick,
Stonewall Battery for St. Cloud
to Bump Heads Into

Mr. Porker, who will furnish the leading attraction at the ball game tomorrow morning, was delivered this noon all shaven and shorn ready to enter the fracas at the appointed hour of 9:30 when several husky Brainerd athletes will endeavor to snare and capture the elusive prize, preceding the game. The farmer from whom Mr. Porker was purchased has guaranteed him to be a thoroughbred, sound and able to make a mile in nothing less than three minutes. This speed will no doubt compel a few of the more eager fan-makers to extend themselves once the animal heads in a direction where his progress will not be obstructed by trees, fences or the spectators. Those desiring to enter the contest and make a try at snaring the prize are requested to come prepared to spool a few pairs of overalls or Sunday trousers. Dick Johnson, the progressive young druggist who conducts any mixture desired, has been asked to prepare a special mixture of oils and greases that will insure a coat for Mr. Pig that will even deflect any sand or dirt that may be heaped upon his back to furnish a better hold. B. C. McNamara, better known as "Mac," has left no stone unturned to insure a barrel of fun for those in attendance, and already has been exercising Mr. Porker in the hopes he may outdistance all contestants.

The ball game, which will immediately follow the capture of the greased pig, is predicted to furnish a bunch of thrills and from the dope coming up the line from the Granite City, St. Cloud already are counting the big haul of iron boys they intend taking away from Brainerd as a result of a victory. Ed. Bowman, the Pine River pheon, will be on the mound for Brainerd with Bud Roderick behind the bat and with good weather and all the players on their toes, the game will be no walk-away for all of the advance predictions.

Jack Roth, St. Cloud's pitcher, is said to be a strike-out artist of no mean reputation while other members of the team are old heads and complete a well balanced line-up. Jake Thielman and Mike Gallagher will decorate the first and second stations while Kuhn and Hudoba will take care of third and short. Baldwin will don the big mit with Eakhouse, Ahles and Peterson decorating the outer gardens.

The advance sale of tickets assures one if not the largest crowds ever in attendance at a ball game within the past few years. The band which will leave the business district at 9 o'clock marching to the ball grounds, will be on the job to foot for the All-Stars and help enliven the opening feature.

Next Sunday Brainerd will play the town that beat Ironton recently and claims to have the fastest aggregation of ball players outside of the Twin Cities. AHEIN, the home of the Petrabor brothers well known University stars, has angled for a game for some considerable time but up to this time the local schedule has been filled. This game, however, will no doubt be a hard fought battle and one worth double the price of admission. The line-up and batting order will appear in a later edition.

Those enjoying the use of season passes to Sunday games will be pleased to be advised that all pass privileges are suspended for the Merchants & Clerks game owing to the arrangement committee participating in the receipts for this particular game.

ODD STORIES OF BRAINERD

The limit in automobile disasters is recorded by two brothers of Brainerd. The first struck a skunk with his car and the brother following got the full scent.

E. L. Dahl, of the electric department of the city, struck a dog with his bicycle and was thrown eight feet in the air and came down heavily, injuring himself. The dog was not hurt and came back and licked his face as Dahl lay on the ground.

Middy Blouse Waists

August, one of the best vacation months of the season for out-of-door sports and outings, demands garments that make for comfort and ease, thus the middy blouse has been adopted.

We are showing them in several styles at 59c, 98c and \$1.25.

CURRENT HUMOR

Ground Out Right Here at Home by
Such Noted Jokers as O. H.

Johnson and Others

"The rich may ride in chaises and the poor may walk," said O. H. Johnson, of the Mansford hotel, "is a proverb that must be altered to suit present day needs. It should be: 'The rich may ride in autos but everybody walks when the car breaks down.'"

Have you read Col. A. J. Halsted's editorial on "Near Beer?"

"Is this the butcher shop?" said a summer visitor, poking his head in the Dispatch office.

"Well," said the printer's devil, "this is a newspaper office, but we do butcher up things sometimes."

"Talk about the tact of some people in this town," said a local barber. "They have about as much sense as the man who asked a barber for a subscription to build a monument in honor of the man who invented the safety razor."

"Gee," said a man favored with a car ride, turning to the owner, "I wish I could afford a car."

"Hum," said the owner, "so do I."

FARM PROBLEMS UP

College Station, Tex., Aug. 2.—Commercial, educational and financial problems connected with farming will be discussed in the Texas Farmers' congress which opened here today. The state horticultural organization is also in session here.

LET US DO YOUR PRINTING

OFFICIALS BUSY STUDYING NOTES

Have Three From Britain and One
From Germany.

ALL DEAL WITH COMMERCE

Arrangements Are Being Made for
Their Publication Simultaneously in
Europe and the United States in
Accordance With Diplomatic Et-
quette.

Washington, Aug. 3.—Three notes
from Great Britain and one from Ger-
many, all dealing with the commer-
cial rights of neutral nations in war
time, are before Secretary Lansing.

Arrangements are being made for
their publication simultaneously in
Europe and America, in accordance
with diplomatic etiquette. The Brit-
ish notes probably will be given out
for publication Wednesday morning
and the German note for the follow-
ing day.

The first British note is a long com-
munication defending the allies' ef-
forts to suppress trade between their
enemies and neutral countries, even
by the stoppage of abnormal com-
merce through the neutral countries
of Europe adjacent to the Teutonic al-
lies.

The second note of the series deals
with this issue and it is understood
that it sets up the contention that an
actual blockade of the North sea ports
exists and that regardless of the Brit-
ish order in council there is an in-
herent right in the blockading powers
under international law to suppress
traffic bound for neutral countries,
but believed to be destined for an
enemy.

In the last note of the series the
British foreign office holds that the
orders in council comply with the
spirit of international law, although
they make a new application of these
principles to suit the new conditions
developed in the war.

The German note, continuing the
discussion over the sinking of the
American ship William P. Frye by a
German commerce raider, deals with
the American contention that not only
international law, but special pro-
visions of the treaty of 1828 between
the United States and Prussia, had
been violated.

The note makes no substantial
change, it is understood, in the origi-
nal German contention that while the
treaty of 1828 does confer special
privileges and exemptions upon Amer-
ican shipping, these all can be met
and the right still reserved to sink
merchant ships if the owners are
compensated.

CHICAGO MAN SLAYS THREE

Kills His Wife and Her Sister and
Brother.

Chicago, Aug. 3.—Leaving a young
woman, over whom he had had trou-
ble with his wife, in his automobile in
front of his home, George H. Jones,
forty-eight years old, a garage owner,
entered the home of his brother-in-
law and shot to death his wife and
her sister and brother, and tried to
slay his own son. He then returned
to the automobile, drove the young
woman home and tried to commit sui-
cide.

Jones had quarrel with his wife
about the attentions he is said to
have paid Miss Margaret Bittner,
twenty-one years old. Mrs. Jones had
gone to live with her brother and had
brought suit for divorce and to pre-
vent her husband from disposing of
his property to her detriment.

KILLED IN AUTO ACCIDENT

Pittsburg Coal Operator, His Wife
and Chauffeur Victims.

Ligonier, Pa., Aug. 3.—Alexander
Dempster, seventy-nine years old, a
wealthy coal operator of Pittsburg,
his wife and chauffeur, Carl Williams,
were killed when an automobile in
which they were riding went over a
twenty-foot embankment four miles
east of here.

James Dempster, a son, probably
was injured fatally. Mr. Dempster
died of injuries, while his wife and
Williams were killed instantly.

Clash at Eastland Probe.

Chicago, Aug. 3.—Conflict between
the department of commerce and
State's Attorney Macley Hoyne arose
during the investigation of the steam-
er Eastland disaster, because Robert
Reid and C. C. Eckloff, federal inspec-
tors who gave the Eastland its last
license, were brought handcuffed to-
gether before Secretary of Commerce
Redfield and the steamboat inspection
service board.

Negro Confesses Murder.

Murphysboro, Ill., Aug. 3.—Joe De-
berry, the negro under arrest at Har-
risburg for the murder of Mrs. J. H.
Martin of this city, is said to have
confessed his responsibility for the
murder and assigned as one cause for
the murder the fact that Mrs. Mar-
tin would not allow him to let the
dinner dishes go unwashed. Deberry
was employed by the Martins as a
servant.

CROWDS FILL THE STREETS

Thousands Attracted to Funeral of
Charles Becker.

New York, Aug. 3.—The funeral of
Charles Becker, executed in Sing
Sing prison Friday for instigating the
murder of Herman Rosenthal, was
held from the Church of St. Nicholas
of Tolentine, in the Bronx. The
church was filled with men and wom-
en and the overflow stood in the
street outside. So great was the
crowd around the church and the
Becker home nearby that police re-
serves had to be called.

Less than a dozen carriages follow-
ed the hearse to Woodlawn cemetery.
One carriage was filled with floral
tributes. The largest of these was a
floral cross bearing the inscription,
"Sacrificed to Politics." A card con-
veyed the information that it had
come "From a Friend."

As the carriage filled with the floral
offerings was about to drive
through the gates of the cemetery
uniformed employes stepped up and
removed the "Sacrificed to Politics"
inscription from the floral cross.

BOAT SAFETY TEST FATAL

Launch Owner Tries to Tip Craft and
Succeeds.

Little Falls, Minn., Aug. 3.—Rock-
ing a boat claimed another victim
when Bert Augustad, thirty-nine
years old, a laborer, was drowned in
Fishtrap lake. Three others saved
themselves, two by swimming to
shore and the other by clinging to the
boat until rescued. The owner of the
launch reached it to show it could
not be capsized, and it sank stern
first, only the bow remaining above
water.

SULPHUR STEAMER AGROUND

Crew Are Safe Although Steamer Is
In Serious Situation.

Bath, Me., Aug. 3.—The sulphur
laden steamer Frieda from Sabine,
Tex., for Searsport, Me., went ashore
in a dense fog on Sequin island, off
the mouth of the Kennebec river. The
vessel was so firmly grounded that
the chances of floating her without
assistance were considered light. The
crew of about thirty men was report-
ed safe on board.

One Soldier Killed Two are Wounded

(By United Press)

Brownsville, Texas, Aug. 3.—One
soldier and one Texas ranger have
been killed and two soldiers and two
rangers wounded during a fight with
Mexican raiders at San Benito this
morning. The raiders are thought
to be the same as those who yester-
day fired into an automobile party
here.

Lawson Asks for Writ Supercedas

(By United Press)

Denver, Aug. 3.—John R. Lawson
has asked the state supreme court to
release him under a writ of superce-
das pending the final order for a new
trial.

ROOSEVELT LAUDS DEPARTING MOOSE

Says Those Returning to Repub-
licans Made Fine Fight.

Oyster Bay, N. Y., Aug. 3.—Colonel
Theodore Roosevelt, who reached
home from his Western trip, issued a
statement relative to the recently
published announcement of some of
the Progressive party leaders in New
York state that they intended to en-
roll with the Republican party this
year. Colonel Roosevelt's statement
is as follows:

"As regards the Progressives who
have announced their intention of en-
rolling as Republicans in this state I
have nothing to say, except that I
think it has been fine of them to have
made the great fight they have made
during the past three years for pro-
gressive principles and I am sure that
they are acting conscientiously in the
step they now take and with the pur-
pose of doing what they regard as
most useful to the community.

"Holding the convictions I do it
would be an impossibility for me my-
self to take that step. I shall enroll
as a Progressive and if any man in
this state asks my advice I shall ad-
vise him also to enroll as a Progress-
ive."

* KAISER DECLARES GOD
* HELPED IN THE EAST.
*
* Cologne, Aug. 3.—Cardinal
* Hartmann, archbishop of Co-
* logne, said during the cathedral
* service that he had congrat-
* ulated Emperor William a few
* weeks ago upon the favorable
* military developments in the
* east and that the emperor
* pointed upward and replied in
* a tone of the deepest convic-
* tion, "He up there has helped

BRITISH SUBMARINE SINKS TURK VESSEL

Admiralty Reports Expedition
Into Sea of Marmora.

London, Aug. 3.—A statement is-
sued by the admiralty says:

"The vice admiral commanding in
the Eastern Mediterranean reports
that one of the British submarines
operating in the Sea of Marmora has
torpedoed a large steamer of 3,000 tons
off the Mudania pier, which had sev-
eral vessels secured alongside. The
explosion was very heavy. A small
steamer close to Karabigha bay was
torpedoed.

"A report from Constantinople
states that a gunboat was torpedoed
in the Sea of Marmora about this time
and it possibly refers to this occasion.
"Torpedoes were fired at lighters
alongside the arsenal at Constanti-
nople. The result could not be seen, but
the explosion was heavy.

"The Zeppelin powder mills were
fired at, but owing to the darkness the
result could not be ascertained."

\$100 REWARD. WISE

The readers of this paper will be
pleased to learn that there is at least
one dreaded disease that science has
been able to cure in all its stages, and
that is catarrh. Hall's Catarrh Cure is
the only positive cure now known to
the medical fraternity. Catarrh being a
constitutional disease, requires a constitu-
tional treatment. Hall's Catarrh Cure is
taken internally, acting directly upon the
blood and mucous surfaces of the sys-
tem, thereby destroying the foundation
of the disease, and giving the patient
strength by building up the constitution
and assisting nature in doing its work.
The proprietors have so much faith in
its curative powers that they offer One
Hundred Dollars for any case that it
fails to cure. Send for list of testimo-
nials.

photographer must make his plates
suffer."
"Why do you think so?"
"Aren't his plates sensitive?"—Bait-
more American.

GLASS OF SALTS CLEANS KIDNEYS

If your Back is aching or Bladder
bothers, drink lots of water
and eat less meat.

When your kidneys hurt and your back
feels sore, don't get scared and proceed
to load your stomach with a lot of drugs
that excite the kidneys and irritate the
entire urinary tract. Keep your kidneys
clean like you keep your bowels clean,
by flushing them with a mild, harmless
salts which removes the body's urinous
waste and stimulates them to their nor-
mal activity. The function of the kid-
neys is to filter the blood. In 24 hours
they strain from it 600 grains of acid
and waste, so we can readily understand
the vital importance of keeping the kid-
neys active.

Drink lots of water—you can't drink
too much; also get from any pharmacist
about four ounces of Jad Salts; take
a tablespoonful in a glass of water
before breakfast each morning for a few
days and your kidneys will act fine.
This famous salt is made from the
acid of grapes and lemon juice, combined
with lithia, and has been used for gener-
ations to clean and stimulate clogged kid-
neys; also to neutralize the acids in
urine so it no longer is a source of irri-
tation, thus ending bladder weakness.
Jad Salts is inexpensive; cannot in-
jure; makes a delightful effervescent
lithia-water drink which everyone should
take now and then to keep their kid-
neys clean and active. Try this, also
keep up the water drinking, and no
doubt you will wonder what became of
your kidney trouble and backache.

DRUG QUALITY

In buying medicinal drugs
only those of absolute purity
and potency should be accepted.
If you are not posted on drug
quality you can still exercise
care in purchasing by trading
at a drug store where only the
right kind is sold. Price should
not be made the leading con-
sideration when buying drugs
for sick people. Right results
are wanted regardless of cost.
If you trade with us you are
insured fresh, pure, potent
drugs. We exercise care in
handling them. We charge ex-
actly what goods are worth and
no more.

DROPPING hints right and
left to get started on the
Real Tobacco Chew.

Oh, the users know what the
Real Tobacco Chew does for a
man—and lots of men want their friends
to get in on the joy of the small chew
that satisfies.

A little chew of pure, rich, mellow tobacco—seasoned
and sweetened just enough—cuts out so much of the
grinding and spitting.

THE REAL TOBACCO CHEW IS NOW CUT TWO WAYS!!
W-B CUT IS LONG SHRED. RIGHT-CUT IS SHORT SHRED.

Take less than one-quarter the old size chew. It
will be more satisfying than a mouthful of ordinary
tobacco. Just take a nibble of it until you find the
strength chew that suits you, then see how easily and
evenly the real tobacco taste comes, how it satisfies,
how much less you have to spit, how few chews you
take to be tobacco satisfied. That's why it is *The
Real Tobacco Chew*. That's why it costs less in the end.
The taste of pure, rich tobacco does not need to be covered up. An
excess of licorice and sweetening makes you spit too much.

One small chew takes the place of two big
chews of the old kind.

"Notice how the salt brings
out the rich tobacco taste."
